

SINGLE USE PATIENT SLINGS

Aspire for... Safety, Support & Infection Control

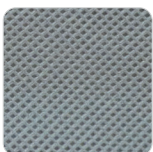

Clear coloured binding tape identifies sling size.

FEATURES & BENEFITS

- General Purpose Sling with Head Support designed for single and exclusive patient use before disposal when soiled.
- Reduces or eliminates the risk of cross contamination between users.
- Ideal source of control for facilities and hospitals alike to prevent cross contamination between users.
- Strong and durable non woven fabric provides a comfortable and safe lift.
- Identification tag allows care and nursing staff to write patients name to help control exclusive use.

NON WOVEN FABRIC

Intuitive usage indicator identifies when sling has been wet or washed, rendering it no longer available for use.
